Some Information to think about regarding “Heely’s”

- The US Consumer Product Safety Commission reports over 1,600 emergency room visits in 2006 due to wheel and roller shoes.
- From September 2005 through December 2006, one death was reported to the U.S. Consumer Product Safety Commission

How to Heel

SAFETY TIPS:

When using your Heelys skate shoes in the "walking" or "shoe" mode, always remove the wheels. Replace your wheels with the Heelys "Sole Saver" Heel Plugs to increase comfort and prolong the life of your heel bracket (Note: Sole Savers not available for dual-wheel models).

NEVER skate faster than you can run.

NEVER skate in or near streets, around traffic, or stairs.

NEVER try to skate over cracks, or through rocks, sand, or water.

ALWAYS wear protective gear.

WARNING:

Excessive wear of the heel bracket or wheel well can cause improper seating of the axle and could be UNSAFE. Always make sure the axle is FULLY locked into the heel bracket before attempting to heel/skate. Please Note: Heel plugs are not available for dual-wheel Heelys models.

Safety Gear

[Installation](#) | [Removal](#) | [Heel Plug](#) | [Care](#) | [Heeling](#) | **[Safety](#)**

Please remember that although using your Heelys skate shoes is extremely enjoyable, there is a learning curve. Heelys is a sport and the key is to learn how to heel safely and properly.

While using protective gear cannot guarantee your safety, it could greatly reduce your chances of injury. We therefore always recommend wearing Heelys protective gear when using your heeling skates.

It is highly recommended to wear a Heelys helmet, wrist guards, knee pads, and elbow pads when using your Heelys skate shoes. Be sure to avoid cracks, and skate only on smooth, stable, dry surfaces. Do NOT skate over rocks, sand, or water.

As with bikes or inline skates, wearing the right safety gear and taking necessary precautions are very important. Safety has always been a top priority for Heelys:

- Each pair of Heelys comes with written "how to" tips, safety instructions, and proper protective gear recommendations. A video to demonstrate the recommended steps for the safe use of heeling is available free of charge at many participating retailers as well as on our web site.
- Heelys strongly encourages and sells safety equipment (helmets, knee pads, wrist guards and elbow pads).
- Heelys recommends using safety equipment whenever wearing Heelys with the wheels in.
- Heelys offers a 1-866-433-5464 number for any safety questions.
